

CITY OF
MARGATE
Together We Make It Great

June 15, 2017

To Whom It May Concern:

I am pleased to write this letter of recommendation for GCL Construction. We contracted this firm to perform the reconstruction of the ceiling in our backwash holding tank at the City of Margate's water treatment plant. John and his crew had to work under difficult conditions and perform their responsibilities while allowing us to continue our daily operations for the water treatment plant. GCL Construction was very dependable with strong work ethics and the ability to handle the ever-changing workload.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Sierra R. Evans', is written over a horizontal line.
